Move Your Stuff, Change Your Life: How To Use Feng Shui To Get Love, Money, Respect, And Happiness

Synopsis

An essential and accessible guide to increasing happiness, improving your financial well-being, and bettering your health through the timeless Chinese art of feng shui. Promising health, wealth, and happiness, feng shui offers endless appeal—at least in concept. Unfortunately, feng shui's seemingly complicated methods are often difficult to learn and apply in a meaningful way. Fortunately, *Move Your Stuff, Change Your Life* is written in plain and simple English for the modern Western reader. Revealing the ancient Chinese secrets that are as useful and necessary today as they have been for centuries, *Move Your Stuff, Change Your Life* communicates how to:

- MEET THE ONE
- FIND A DREAM JOB
- EARN BETTER GRADES IN SCHOOL
- ENJOY A BETTER SEX LIFE

Customer Reviews

Professor Lin Yun World's Foremost Black Hat-Style Feng Shui Authority This book is a page-turner and one that cannot be put down until the last page is read. It offers vibrant new directions to those who are lost in life; it is an oasis in the desert. Denise Linn author of *Sacred Space* With wisdom and humor, Karen Rauch Carter has taken the best-kept secrets of feng shui and made them accessible for everyone. *Move Your Stuff, Change Your Life* is funky, fun, and filled with practical information to create harmony and balance in life. Denny Fairchild author of *Healing Homes* *Move Your Stuff, Change Your Life* is home improvement, entertaining, educational hilarity that will have you smiling while scrubbing and glowing in the feng shui flow. Martha Stewart, move over. Cuddle up and

declutter with Karen.

Like sushi, Giga Pets, and Jackie Chan, feng shui has made its way West in a big way. Promising health, wealth, and happiness, feng shui offers endless appeal -- at least in concept. Unfortunately, feng shui's seemingly complicated methods are often difficult to learn and apply in a meaningful way. Fortunately, *Move Your Stuff, Change Your Life* is written in plain and simple English for the modern Western reader. Presenting sound feng shui advice in an easy-to-understand and easy-to-use manner, *Move Your Stuff, Change Your Life* communicates how to: -- GET A RAISE-- MEET "THE ONE"-- BECOME ABLE TO CONCEIVE AND BEAR CHILDREN-- FIND A DREAM JOB-- EARN BETTER GRADES IN SCHOOL-- ENJOY A BETTER SEX LIFE-- ACHIEVE OPTIMAL HEALTH Feng shui is a powerful yet simple tool by which to change one's life. *Move Your Stuff, Change Your Life* reveals the ancient Chinese secrets that are as useful and necessary today as they have been for centuries.

The trick to this is to have fun with it. At first I thought I was going to have to spend a lot of money & re-arrange everything, but this is not the case. I did end up spending under \$50, but that was my preference, not necessary. The rest I can do with colored paper. The process makes you more attentive to things you are probably neglecting, such as: health, finances and the other life areas. Color does have power and vibration and light does effect us; ever have to sit under florescent lights with no natural light? Most people do and I think it is very stressful and helps contribute to much of the workplace misery. There are tips for office management in this book, but the focus is on your home and it's not something just for the richest one percent. All of us can perform feng shui with re-cycled goods, paper, tape & fabric. You can hide many of the solutions too and keep your decor. I don't know yet if it works, but it certainly can't hurt to take the directions & suggestions. It took me 3 days to read the book and make easy household changes, and the last part of the book is ongoing affirmations to help work on positive outlook. If you are cleaning out your house and garage, you've already stepped into the process, so why not try some easy feng shui and see what happens?

For anyone who has either been just confused by the many different schools of Feng Shui, or just wants to start from scratch with an extremely practical guide, this is it. The author covers all the basics and explains WHY they work, and is also careful to point out where there are extreme situations that need professional help beyond a book. It is rare to find any book that is so clear and hands-on in any field! This book is also well suited for Westerners who may not relate to all of the

traditional Feng Shui cures, and it offers many alternatives for the cures that you may already have at home or can get nearby.

Is the best book on feng shui I have ever had. This is the fifth copy I have bought to give to a friend. It is written so well and the author is so entertaining and her ideas are so easy to apply to your home

Great book for those looking to add some Feng Shui techniques into their home.. This book makes it easy for beginners to learn about and practice the laws and cures of Feng Shui. The author is spunky and makes Feng Shui fun, practical and EASY to understand unlike many other books that I have tried. I just purchased a new home and I'm obsessed with this book and love the idea of applying what I read to my home decor!

This is also a good Feng Shui. I'm new to this practice and I think this book did a great job with tackling the clutter. I am a paper hoarder, always hanging onto documents and pages I rip from magazines. It piles up quickly. This book really helped me break away from my inner paper hoarding habits. Feng Shui really does work. When you let go of finished projects and clutter, you open yourself up to new, more exciting projects. Very easy to read and understand. And I think it did a tremendous job explaining why people hold onto stuff. It was also sensitively written which i thought was really nice of the author to be empathetic to people who hang onto items.

The book was not as good as other Feng Shui books on the market. The Bagua was the new age Western version rather than the classical Feng Shui Bagua version.

I enjoy Feng Shui material and have read just about everything I can find on the subject. So, to me this was generally informative, though not new ideas. As a personal preference, I didn't care for the writing style. (Sort of the "Hey, Girlfriend" mode.) Other reviewers obviously like it. I do like the author's reminder that very small things can make a big difference in how one views their home and the resulting changes that can make in other things. She points out the reasonableness of Feng Shui, which is not always explained well in other sources.

I have purchased over five of these books since purchasing my own to give to friends and family members. Shortly after moving my belongings around in my career area, I was enrolled in college.

My prosperity and helpful people sections were spruced up, and my husband landed a job earning over 200,000.00 a year. Is it magic? No it is Feng Shui principles utilized on the simplest levels with a huge dose of intention and direction from the author of this book. Her humor and ease of use make this my number one Feng Shui book and I would recommend it to beginners as well as seasoned practitioners. Give it a heart felt try and watch in amazement as your life transforms in front of you as if you are in a movie. Real Cool.
