Customer Reviews

This is quite possibly the stupidest purchase I've ever made on . It does not contain information that isn't already published in multiple blogs and Youtube videos. Most of the images within the "book" can be found in the first couple of pages of Google Images if you search for "Interior Design." There is some structure to the overall narrative but there is very little actual information. I also love how the physical copy of the book tries to teach you the importance of colors using black and white images.

Not worth this price at all. For \$18 I would at least expect color photos.

There are some useful points (not many though) but the biggest problem I had with the book is the black and white photos when discussing color themes and the combination of colors which were virtually indiscernible. I would have never bought it, had I known that the illustrations are black and white.

I was so happy to pick this book up because I've never had a strong idea of how to decorate my living spaces. My apartment still looks like a college kid decorated it even though I'm approaching 30. I loved that this book laid out the basics and also how to achieve the look you want while staying on a budget. Loved!

It's a very small book with black and white photos only.

My fiancé are looking at purchasing a home in the next 6 months and I wanted to read a concise, inexpensive book that would help me learn more about interior design, so that when we were looking at homes I would know exactly how we would want to decorate them in the future. This book is very detailed and informative, and to the point. I really felt as though I learned a lot from it. I know I will be in charge of decorating and design in our future home, and I look forward to putting my knowledge to work!

Not enough useful information, poor graphics, black and white illustrations, disappointing.

I am currently renovating my house and looking for new interesting ways to decorate. I liked how this book covers a minimalist style which is probably my favourite. Tip 31 was great, paint your ceiling in a lighter colour to make the room look bigger. I never thought of that. Great tips
