How To Hear Your Angels

Synopsis

How to Hear Your Angels is a step-by-step manual on how to clearly receive messages from your angels and guides. The material was culled from Doreen Virtue's™ best-selling book Messages from Your Angels and from her workshops. Doreen has been assigning this reading material to her Angel Therapy Practitioner's students for many years, and at their request has compiled the information in this handy book. Within these pages, you'll discover your communication style so that you can more easily recognize the visions, words, thoughts, and feelings you receive as Divine guidance. The book is filled with charts to help you discern the difference between true Divine guidance and the voice of the ego, and it will help you engage in clear and understandable conversations with Heaven.

Customer Reviews

Doreen Virtue is the undisputed queen of angel scene. The Bookseller A West Coast Goddess.
Saturday Telegraph Magazine --This text refers to an out of print or unavailable edition of this title.

Doreen Virtue, Ph.D. holds two university degrees in Counseling Psychology from Chapman University in California. A fourth-generation metaphysician and spiritual healer, Doreen has been seeing and talking to angels since early childhood. Doreen writes a weekly column for Woman's World Magazine (North America), and a monthly column for Spirit & Destiny Magazine (U.K.). She has appeared on Oprah

I loved reading this book. In spite of some of the negative reviews, I felt this was a read I could personally connect and identify with. I found myself having a lot of "oh that's what this is" moments. What I enjoyed most was how this book covers more than the how to and expands further to the reasons and theories behind the why's and how certain things work. It was hard to put this book down. Lately I've felt attracted to angels and learning more about them and how to connect with them. And somehow I've stumbled across Doreen's Books and I'm finding one book brings me to another and provided more info. I guess you can say it's the angels lol . Maybe it's them trying to encourage me to connect with them ?? Who knows ? Either way I loved the book and I never really considered reading her books considering I tend to only use a few of her decks

The day I purchased this book, I had taken my dog for a walk earlier that morning. Not really knowing anything about angels, during the walk I said a prayer requesting to obtain the ability to hear the Holy Spirit speak to me more frequently (I had my first experience months earlier). Shortly after arriving home I was divinely led to this book. I didn't set out to search for a book or any other means of obtaining information on how to hear divine messages. After reading Doreen's book, however, it all makes sense of how angels communicate and assist us. In fact, I enjoyed receiving the information in her book so much, I read half the book in just a few hours - I couldn't put it down. This book has already proven to be life changing.

I just simply like Doreen Virtue. She brings lovely light and support through her books. This book uplifts my imagination.

Gives me great relief and comfort. I really enjoy reading this. So many things to learn and know. So many questions answered. I've always wanted to know more about the angels purpose and true feelings about us. Still not sure if they have their own individual personalities. So many positive things have happened since I began reading this book a couple days ago. Some are just amazing and unexplainable. This is the first book I've read by Doreen virtue, but definitely not the last.

Very informative and interesting, useful material from this anointed writer! I am grateful to have this added to my collection of my beloved angels!

Looking forward to reading her book.

Thank you much. AAAAA+++++

How To Hear Your Angels is an extremely helpful book. Virtue explains how angels communicate with us in various ways. Some may audibly hear angels speak to them, but most of the time we experience angel messages in other ways. If learning angel communication is something that interests you, I highly recommend this book.
