Customer Reviews

Lovely coloring book. The designs are beautifully wrought. The paper is high-quality. Don't know that this book induces meditation more than any other :-) but it is great fun. The price, though higher than most other "adult" coloring books, is well worth it, not only for the quality but also for the varied selection. 90 mandalas in all, while those other coloring books tend to offer only 30 or so. If you're looking for a coloring book, I highly recommend this one. My favorite. The only caveat? Some of the mandalas have fine detail, so you'll need a good eye and a sharp point.

The mandalas are printed on both front and back of the pages. I don't know if that was indicated in the description or not, but I missed it if it was. I prefer to have mandalas only on one side of the page due to bleed through from markers when I use them instead of color pencils.

Oh My I absolutely LOVE this coloring book. The paper is beautiful heavy and smooth. The Mandalas are beautiful. I will be finishing up one of them today and I will scan and post it here. This book will definitely not disappointment.

Absolutely lovely drawings! Great book to relax and for peace in mind! Though, I don't like that all the drawings on the book are on the front and back of the page, if one uses markers can stain the other side of the page, though pages are good quality.

Amazing selection of mandals to color. From lacy and detailed to simple and geometric, this book has it all! I love being able to pick between something super detailed and something more simplistic!

I received this as a birthday gift and I couldn't be happier. Pages are good quality paper. Pretty thick. The designs are clean lines and pretty detailed.

This book is gorgeous! The mandalas are large and beautiful. On heavy paper and one sided. This is definitely one of my top five coloring books!

Love this coloring book. It only gets 4 stars though. The mandalas are printed on both sides of the page. My markers bleed through.
