Customer Reviews

I use this as a reference guide all the time

This is an incredible book! All color images! I felt like a little kid going through the Sears Wish Book at Christmas time. It's a great way to see what it out there and do a "check list" of your collection.

Book is in great condition. I love the colored pictures, although it does not have Little Golden Books in it, only all other Golden Books.

Not as complete as I had hoped. Still it has good information.

It is a little out of date but it gives you an idea of which books are more valuable to add to your collection

I like this reference, because it has so many good pictures, much easier to identify children's books this way. Visual is just so much easier to remember. I highly recommend this book.

Another Santi book! Expert on children's public domain books!

This is the only definitive guide available for these books. Proves useful, but still seems like it can be improved with more pictures and prices.
