Fill-in Flip Books For Grammar, Vocabulary, And More: 25 Interactive Study Aids That Kids Fill Out And Use Again And Again To Reinforce Essential Language Arts Content

Synopsis

Learning language arts content is interactive and fun with these easy-to-make flip books. Topics include parts of speech, proofreading, reading response, story elements, figurative language, and much more! Students use a variety of intelligences and learning styles as they construct and complete the activities. Best of all, this engaging format breaks down information into manageable chunks, which helps motivate reluctant learners. All students can use the flip books as handy study tools throughout the year. Includes a blank template teachers can customize!

Customer Reviews

We thought it would be a fun way to review the concepts. I purchaed 2 copies, one for each of my kids. Sadly, this book is not designed well and is a bust because of that. First, the text goes too far into the binding so it is difficult to impossible to photocopy. Secondly, the pages are not preforated. Thirdly, if you do manage to remove the page, I used an exacto blade, you still can't put the flip book together because of the way the info is oriented on both sides of the paper. I am very disappointed and completely frustrated. Another note: I didn't see any info in the book for actually teaching. You need to know your your stuff beforehand.

There are some good activities here, but the pages are impossible to copy unless you remove them

from the binding. The pages are not perforated. It would be nicer if the publisher had designed the pages with space enough to keep them attached to the binding. This would have been better for storage and organization down the road.

Love the flip books, not five stars due to the fact I wanted to remove and copy but I had to very careful destroy the book and remove them all. The pages do not come out to copy, they revery difficult to remove at all. Exact-o knife used to remove the excessive glue holding them tightly in, and still made rips on removing some.

I like having these flip-books as an option activity for my students. The only reason I didn't rate this as a 5 is because the book doesn't have all of the parts of speech inside and that's basically what it's selling on the front cover. Still, there are enough parts provided to add to your collection hands-on projects for students.

Flip books are easy to make yourself in the classroom, but these are already filled-in with activities for students! Great for last minute activity or for substitute teacher to use!

I am an elementary teacher and always looking for ways to interest my students in not-often-interesting grammar lessons and concepts. These flipbooks are great. The students enjoy being able to fidget with them but also learn from them. The spelling partners one is their favorite because it is one they can use every week since the spelling lists change. The flipbooks are a bit weird to copy at first but are pretty easy once you get the hang of it (the directions are there -- you just have to actually read them!). This has very quickly become one of my favorite resources in my classroom and it is great that my students enjoy using the books too.

The cover of this book shows different artwork than is used on the actual flip book pages inside. The actual covers are very plain and not made for coloring. It's a very good resource, but would have been much nicer with designs as shown on the cover.

I really like these activities and my students are enjoying them as well. It is something different from regular paper and pencil work.
