Good

One of my all time favorite Golden Books.GREAT as a gift to those learning to read.

Great to teach from. I use to teach database thinking in high school and use this for thoughts. Have them figure out how to find a goat fastest.

A great short book for any toddler starting to get interested in the alphabet

Matches the dictionaries in my son's class. Love how they remind me of my childhood. Great quality, new book.

I use picture dictionaries with a game series called scribblenauts to make learning language fun for small children. It acts as a gateway that encourages kids to learn while having fun.

Little Golden Books are classics! Our only complaint is the gold binding needs to be tacked down better.

REad this to your child and for yourself. a winner and will make your kid a winner. as in all, well most books - it's good for the kids.
