Seymour Lipschutz is on the mathematics faculty of Temple University. He has taught at the Polytechnic Institute of Brooklyn and was visiting professor in the computer science department of Brooklyn College. He received his Ph.D. in 1960 at the Courant Institute of mathematical Sciences of New York University. He is the author of Schaum's Outline of Beginning Linear Algebra, Schaum's Outline of Discrete Mathematics, and Schaum's Outline of Linear Algebra. John J. Schiller is an associate professor of mathematics at Temple University. He received his Ph.D. at the University of Pennsylvania and has published research papers in the areas of Riemann surfaces, discrete mathematics, and mathematical biology. He has also coauthored texts in finite mathematics, precalculus, and calculus.

A good companion to "Schaum's Outline of Beginning Statistics," which together comprise the topics found in Statistics 101. Lots of examples and problems solved. A good buy, especially when paired with the other text.

This outline book is written poorly, with little explanation on the topics even for an outline book. It's also printed on poor-quality paper! And as customer "Marc Dunlop" points out, there're numerous typos; the ones he lists are indeed major errors! This book can NOT be trusted at all! I regret my purchase 100%.

It met my requirements.

Awful to study from as there are tons of errors / typos. No idea why any professor would choose this book.

Book is fine, just HATED the class and statistics!

FASINATING

Good book for those of us who have to take the course

Great, came as described and on time.
