## Customer Reviews

The Willie Nelson songbook is great for those guys and gals out there wanting to play a Willie song in its true form. You should, however, be an intermediate to advanced guitar player because many of these songs aren't easy. Each song does have the chord schematics and it does make it easier to follow along. The print is also large enough to see if you have trouble with that sort of thing.

This one has a lot of Willie's classics and a few of his lesser known but my favorite songs. This works well for anyone who loves Willie's songs and plays a guitar, autoharp, banjo, keyboard, etc.

bought for my son

Chords, melody, words and Guitar Tab. This is a notation I have not seen before, but there is a

glossary to explain what each notation represents.

So good! I love Willie and now I can play his songs!

I bought this book for my husband as a Christmas gift, he loves it! He's been looking for a book that had all the extra licks that Willie puts in his songs and I hadn't had any luck with finding one til now. Thanks so much for making this book available!
