Customer Reviews

I bought this book after reading several reviews on it. After receiving it and looking it over, it is everything people said it would be. The instrumentation is easy to follow and goes with other hymnbooks as well. The best part is that it folds flat so you don't have to worry about holding the

pages down.

Perfect!

nice

I got this book for church to be used for the chords. Works great. I do not use it myself.

This book came and I was amazed at how many songs are covered that are familiar to me. The music notes are great because they cover the bass guitar tabs. Most music for guitar only shows the guitar chords then you have to figure out the corresponding bass chord. Very satisfied.

We chose this book because we really needed a hymn book that had chords for our guitar (It would be nice to have the words though). It's a great help.
