## Customer Reviews

It has been very useful and is EASY to use. I put the disc in my computer and everything made sense. Click here, change this - print. I love it. - Kirk (Nashville)

Paul Rosenberg has an extensive background in the construction, data, electrical, and fiber-optic

trades. He is a leading voice in the electrical industry, with years of experience spanning roles from apprentice to project manager. Paul has written for leading electrical and low-voltage industry magazines and has authored more than 60 books. In addition, he wrote the first standard for the installation of optical cables in buildings (ANSI-NEIS-301) and was awarded a patent for a power transmission module. Paul works as a consultant and expert witness in legal cases, as well as speaking occasionally at industry events. American Contractors Educational Services has successfully prepared candidates for state required licensing exams since 1991. A team of full time instructors comprises field experience, training expertise and formal education to formulate an effective and dynamic approach to concisely present pertinent test information in a seminar format.

Considering the price for each document for sale at my Contractors school, this is a Huge bargain. My only problem is getting the disc to automatically run on win 10, but, I can still get to the forms... I'm sure the problem is a simple fix, I just haven't had the time Yet...I highly recommend this!!!

This Book comes with CD that is useful for any contractor. It has bid sheets and contracts for every part of the construction process: excel, word and PDF... all editable... amazing value.

The book itself has some good information, but the cd is out of date and can't be used on newer computer systems.

The CD was not in the book I'm very disappointed that's the reason I bought it!

Has all sorts of forms very helpful!

a good guide if you need help with contracts or trying to become a contractor.

Great reading really helpful!

Very nice book
