Customer Reviews

Its sad, the free map I received with my rental car in Martinique was about as good as this one. Then, as I visited places on the island, I picked up a few free detailed maps of various locales, like the Le Marin area, that were much more detailed for the area/city. This map simply isn't worth it, it has only one side used, with some detail of the few places it has 'up close' tiny maps off, like Forte de France, but the free tourist map had greater detail by far of Forte de France and also Le Marin, one of the largest cities after Forte de France, which this map didn't. This map did have very small up-closes for Ste-Anne and Les Trois Islets, which the tourist map didn't (though it did have Point de Bout, which is the main section of Les Trois Islets). The free tourist map also had many advertisements on the sides of interesting things to do and places to visit, as well as placing them on the map.

Bought this for driving around Martinique with no GPS. Very accurate and worth every penny.

This map is the best if you going to drive around Martinique.

Good detailed map if you are going to rent a car. The additional tourist information is of limited value.

Good map
