Customer Reviews

I'm a fan of the author's work. Nearly every paragraph supported with a reference. I have many of the books he cited so I'm familiar with his theses.

Good read, a bit short and small to be considered a book though. It does have lots of info to research which is a huge plus, I found it very interesting, just too short. I finished the entire thing on my lunch break, but have lots of notes to look into on the numerous topics it provided.

A great introduction to those who are interested in the origins of civilization and a great starting point for further reading and research.

Good information

If you are a truth seeker and enjoy history, this is a must read.

Good information.

Helpful and concise Overview of the Cradle of Human Civilization

Outstanding
