Tied (Devils Wolves Book 2)

Synopsis

He was the myth and the legend of our small town. But no one knew the truth... except me. Me. My childhood was stolen by a monster. I've forgotten what love feels like. What happiness feels like. What hope feels like. I am numb. He's possibly as damaged as I am. Maybe even more. Scarred just as much on the inside as the outside. Just like me. He doesn't speak. He doesn't smile. He hides in the woods like an animal. I should be scared of him. But I'm not. He's the only one that has ever made me feel. And I want to make him feel, too. Everything...

Customer Reviews

Well worth the wait! Carian has a way of writing that draws you in to the story. I picked up Storm on a whim a few years ago, possibly free, and began an amazing ride into the world of Ashes and Embers and the Devils Wolves. Tied takes us on an interesting ride to healing, and learning to love again. Both Tyler and Holly are broken individuals, tied together by fate. Little by little they heal each other and head off to a wonderful HEA. I don't want to give away much of the plot, because one just has to read the book to understand the twists and turns of where they end up. I love the animal element of Carian's books, and of course she didn't disappoint. This book has two wonderful animal friends a small dog named Poppy and a rescued fox named Boomer.

This book, besides being hauntingly, exquisitely beautiful, is riveting. You will likely be unable to put it down so a warning is in order: You may want to plan not to leave the house or come out from behind your sunglasses, because you will probably be ugly crying. Tyler Grace is a hero. I need to make that clear from the start. Tyler has a heart of gold. He loves deep, hard, and passionately. He is fiercely loyal and never deviates from his love for Holly. That he has conflicting feelings on how to act on that love made him strong, but vulnerable, and he walked into my heart from the moment he appeared in the book and is firmly entrenched there. Yes, he had unfortunate encounters with fate, and some of his choices as a young man are questionable, but he yearns for acceptance, even though he tends to push people away. He braces himself for rejection frequently, and inside, hopes for love. Holly has had a horrific childhood after being kidnapped by a pedophile and being kept prisoner for 10 years. Becoming reacclimated into society isn't an easy road for her, however, she tackles it, and in the process rediscovers her prince. She never wavers in her love and devotion to Ty. She adores him. He is her soul mate, her protector, teacher, therapist, lover, best friend, and confidant. Holly is strong and fragile at the same time. I never wanted to leave the enchanted life they were able to build for themselves. This book has all the emotions that you could hope for. Carian Cole manages to weave yet another masterpiece with her gift for storytelling. She is an author with such descriptive abilities, that you are left breathless. Her writing is seamless, erotic, haunting, poetic, and exquisitely beautiful. She manages to pull you in immediately and you sail into the story with arms wide open, wanting to experience each emotion with her characters. I have not come across another author in the last 25 years who touches me so deeply. Carian is true to who her characters are, in all of their flawed beauty. The secondary characters in this book are amazing. A sweet, yet bad ass Grandmother, a whimsical fox and devoted dog, a friend/roommate who helps Holly as she readjusts to the culture from which she had been removed, along with the families of both characters. We have the absolute joy of meeting Tanner, Tor and Ty's brother who seems to be heading into his own rough waters. This book has everything you could hope for. Every book that Carian writes is a gift to her readers. She puts so much of herself and her love into her characters, that you feel that you know them almost as intimately as she does. Apart from her genius as a writer, she also donates a portion of her book sales to worthy animal charities. If you like cookie cutter characters, this book may not be for you. However, if you love deep, genuine characters who make you laugh, cry, cheer, and feel their love growing stronger, more passionate, and forever, then welcome to Ty and Holly's world. I can't recommend this book enough.

I read a kindle copy of this and NEED it in paperback and audio. I loved this book so much that I NEED it in every format. Tied is an incredible story filled with pain, longing, heartache, hope, that bring two damaged people together to find a sweet, gentle love. The characters, Tyler and Holly, and everything they went through separately tugged at my heartstrings. The pain they harbor separately brought them together. Everything they endure together warmed my heart, forcing it to overflow with happiness and hope for them. This is a carefully written, emotional, and beautiful story. I absolutely LOVE it.

Loved Tyler and Holly's story!! Angst, love, happy and sad, Carian makes you feel it all with this beautifully written story! Tears will come to your eyes at different parts from all of the emotions you will be feeling as you read! Loved this story so much! Carian never disappoints! I love this series as much as I love her Ashes & Embers series! Don't pass this one up!

I didn't want to put it down. This was such a great book, the depth of these characters was amazing. I immensely enjoyed the way that they became friends first. The horrible things that happened to them were explained enough for clarity, but not to the point that it was uncomfortable. I loved that even though Tyler had certain penchants, he was able to be so gentle with Holly. I loved her brother and Anna, I really wish her parents were better, but I thought everything worked out perfectly. This author is amazing and I definitely will be reading more of her books.

Amazing and emotional - I don't think there was one section of this book that didn't bring tears, from flashbacks to the prospect of a future, this book holds your heart, and you don't want to put it down until you can finish it. Carian takes great care in dealing with several hard topics, and she works them in a way where you don't feel that they're there for shock, they're there to tell the story. The characters are beautifully written, and their journey to find each other, and their happiness is perfect. Anything I would ask for would be more of their story.
