Iron (Rent-A-Dragon Book 2)

Synopsis

A Dragon Mechanic? Unheard of. Unless you're Magnus Ironside, a metal dragon who just awakened in the modern world and happens to be obsessed with cars and their inner workings. Add in the fact that his mate just walked in to hire him to work at her auto shop, and Magnus is one happy dragon. Now he just has to flex his pecs, show her his huge 'axe', and everything will work out, right? Wrong. Lindy Dunn doesn't have time for a relationship, not while she's working herself to the bone trying to make ends meet. She doesn't have time to notice the huge muscles or gorgeous, jade-green eyes of the oddly sexy handyman she just hired. No matter that he's seriously good with cars, and fun to be around. With someone sabotaging her dad's shop, it's not the right time to fall into any man's arms, even if it's someone as capable as Magnus. Magnus knows he can win over Lindy, as long as he doesn't move too fast with talk of dragons and destiny. The heat between them is too blazing to deny. But though Magnus thought he'd left the past far behind him, one big storm is still approaching, bringing a dark figure that threatens to destroy everything the iron dragon holds dear. Iron is the second book in the Rent-A-Dragon series! It contains stubborn dragons, action-packed fights, and hot, steamy dragon romance. Enjoy!

Customer Reviews

IRON is the second book in the series Rent-A-Dragon by author Terry Bolryder. I have to admit that this is the first book I've read in this series. I know, I know -fail. However I did purchase both books in the series, so yay me!!!! Alright enough butt kissing.Iron is an amazingly well written story. The storyline is captivating and intriguing, it hooks you in and doesn't allow escape. Heck, you don't want to escape. The characters are cocky- well they are dragons so ya cocky.Just one question, where can I rent one??!!! voluntarily reviewed an Advance Reader Copy of this book.

**** spoiler alert **** After being revived, Magnus Ironside lives with his subconscious telling him that their earlier accident being his fault. Lindy Dunn lost her father and now thanks to an ex is about to loose her father's auto shop. After one meeting Magnus recognizes her as his mate, but she escapes before he can talk to her more. Will fate give Magnus a second chance with his mate? Will Lindy be able to accept all of what Magnus is and give into her feelings?LOVED Magnus. Loved his tortured soul and how everything was not as it seemed! I was happy with how both the other metal dragons told him flat out that it wasn't his fault when they found out he believed it was. There were times I wanted to shake some sense into Lindy, but one bitten, twice shy. I was happy that when it came down to it, she was determined not to let her fears override everything! Cannot wait for Titus' book!

Lindy and Magnus had a rocky start to their relationship but, with time and persistence from Magnus, Lindy finally started to like him and shared in their relationship. Lindy had a lot of trust issues after her father's death as well as her "boyfriend" stealing her blind. Slowly, Magnus showed her she could trust him. After all, she was his fated mate. You'll need to read this book because there are many things you need to know. First, it's a really good story and the characters are well developed. Plus, I definitely recommend it. Enjoy!

3.5-4 starsThis was a pretty good story. I liked Lindy and Magnus and enjoyed seeing them get together.Lindy is a mechanic and owner of an auto repair shop that used to be her father's. Lindy's lost her mother at an early age and only had her father. When he died recently, Lindy was lonely and made the mistake of getting involved with a man she didn't love and who ended up stealing

from her business. Lindy needs a new mechanic to help keep things going and winds up at Rent-a-Dragon, hoping to find temporary help. Magnus is a Iron dragon that is many centuries (or maybe millennia) old. He and his ship mates (think old Viking types) set out from their home to find mates but a big storm capsized their boat, causing them to get frozen in ice until the Oracle found them and thawed them out. Magnus and his shipmates have been staying with Aegis, Opal & Citrine (from "Emerald Dragon" from the Awakened Dragons series) while they get acclimated to the modern world and try to find their mates. Magnus is good at fixing things but is plagued by fears about whether he deserves his new life because he blames himself for him and his friends being capsized and frozen. Nightmares about what happened keep Magnus up at night and he tends to go driving to clear his head. One night, he finds a woman on the side of the road with a flat tire and no jack. He helps her out but she's wary of him. Magnus realizes that she's his mate but not until she's already driving off and he doesn't know how to find her. Magnus is depressed about finding and losing his mate so quickly but fate smiles on him because Lindy shows up at Rent-a-Dragon looking for help and Magnus is just the man/dragon to do it. Magnus starts working for Lindy and she's not easy to get close to. Lindy was crushed when her father died and hurt by her Ex stealing from her so she's not in a hurry to get involved with someone, especially when it means losing them could cause more hurt. Magnus takes things slow and makes sure Lindy is confident in him and comfortable with him. They're able to start something between them while Magnus helps at the garage and protects her from the guys trying to force her out of business (which ends up being a bit deeper of an issue than expected). With a bit of time and some effort, Magnus is able to get past Lindy's defenses and they end things starting on a well deserved HEA together. This was a pretty enjoyable story. I liked Lindy...she was a bit resistant to a relationship at first but I could understand why. I was happy that she didn't take too long to allow Magnus in. Magnus was a good guy and did whatever he could to protect Lindy and make her happy. Overall, this was a pretty good story and I liked the characters so I'd recommend it. :)

In the second Rent-A-Dragon book, Magnus is trying to outrun his guilty conscious and instead happens on Lindy stranded on the side of the road without a jack. It's late at night and Lindy is uncomfortable around the huge, unkempt man who stops to fix her flat tire. As quickly as possible, she leaves a stunned Magnus by the side of the road. When he finally realizes that his mate has driven away he is devastated. Fortunately for him, Lindy later arrives at the castle to rent a mechanic/bodyguard and gives Magnus another chance to win his mate. This book is enjoyable to read. Magnus is sexy and comforting, the perfect dragon to rescue a damsel in distress. And Lindy

definitely needs rescuing. Recognizing that she is in a vulnerable state of mind at this time, Lindy tries to resist Magnus's overtures. When an evil foe from the dragon's past surfaces, though, Lindy and Magnus realize that they must come together to destroy the threat to their happiness. Lots of action both in and out of bed. Love the characters and the storyline. Got to go now. Titanium, book 3 in the Rent-A-Dragon series, is waiting on my Kindle...

Happily ever after isn't what you'll find here. Instead you'll find a dragon who more represents man than anyone realizes. His past haunts him, calls to him. A horrific event has left him forever changed. The cracks in his soul can only be filled by the one who got away....Romance, passion, sweet gestures... what we want for our relationships all here.
