Customer Reviews

My daughter managed to loose her Geography book from school so I was delighted to be able to purchase one to turn in at the end of the year. I was a bit worn but not any more than the original one. Happy with purchase.

Needed a set of text books for my son at home. His backpack was way too heavy. Ordered him 4 text books. He has a set at school and a set at home. No more backpack weight problems.

My son somehow lost this book, so we had to buy one. It is a good book for kids at that age.

Introductions to all sorts of political systems and the interaction between countries which are neighbors by the accident of geography. Highly recommended.

Needed this book for a class my daughter is taking.

exactly what we expected

I have to ask my daughter. This was for one of her classes!

my son actually is working with it. Good condition and price is wonderful, i save a lot of money at school items
