Customer Reviews

John Langan has taught reading and writing at Atlantic Cape Community College near Atlantic City, New Jersey, for more than twenty-five years. The author of a popular series of college textbooks on both writing and reading, John enjoys the challenge of developing materials that teach skills in an especially clear and lively way. Before teaching, he earned advanced degrees in writing at Rutgers University and in reading at Rowan University. He also spent a year writing fiction that, he says, is now at the back of a drawer waiting to be discovered and acclaimed posthumously. While in school, he supported himself by working as a truck driver, a machinist, a battery assembler, a hospital attendant, and an apple packer. John now lives with his wife, Judith Nadell, near Philadelphia. In addition to his wife and Philly sports teams, his passions include reading and turning on nonreaders to the pleasure and power of books. Through Townsend Press, his educational publishing company, he has developed the nonprofit Townsend Library, a collection of more than a hundred new and classic stories.

I have volunteered my services as a reading tutor. I loved this book for my students when I was teaching at a technical college. It helped my students learn to write and express themselves adequately. The new versions of this are very expensive (over \$100). I must have given my other copy away. However this time, I will hang onto it like glue.

this is an excellent text book and will give you a lot of exposure to various writers. I had to purchase this for a class and am glad that I did. I'm way advanced as a writer for this to help much, as this is fairly basic writing and with so many years of producing technical writing for the military, it was too basic for me to get much out of. However the many different authors profiled in text they wrote makes the book worth finding and getting a copy of for your library as I have for mine

This has been a great aid in helping me with my writing. I bought it for a college English class and it came in handy. Easy to read and follow.

In the book there are very nice review quizzes. The huge problem is I don't have anyway to know if I am answering them correctly since there is no answer key. To get the answers, I would have to purchase the teachers edition. I've been out of school for awhile, but I'm pretty sure the books use to have the answers in the back, so you could check your work. This is only a problem if you aren't being instructor led. If you have a teacher, you can ask them if you're doing it right. If you aren't so lucky, and you're doing college online with no instructor interaction this presents a problem.

This text covers a lot of really good information for anyone who's writing. Definitely a good pick by my school! They explain all of the concepts in depth, and give excellent examples. I like the instructor's edition especially because it has notes in it that the normal text doesn't, and I found those really helpful as the student.

Worked for the class

very satisfy

Good
