Running Guns: The Global Black Market In Small Arms

Synopsis

Whether it is Africa, Sri Lanka, or even Chechnya and Afghanistan, it is not heavy weaponry or hi-tech devices that kill the most people, but the flood of cheap, easy to get, small arms that has swept over so many countries in the 80s and 90s. Yet a lot of this cross-border arms trade is illegal. This important and readable new book seeks to advance our understanding of the illegal arms traffic. What precisely is involved? How is it conducted? Who are the players? What are the impacts? What needs to be done?

Customer Reviews

'The international community is awakening to the dangers... Running Guns provides a body of interpretative analysis that should serve as the framework for developing real responses.' Daniel Garcia-Pea, former Colombian Presidential advisor and peace negotiator 'Provides the first in-depth coverage of the infrastructure of the small arms business, and traces the evolving international efforts to contain the impact of these weapons.' Jonathan M. Winer, former US Deputy Ass. Sec. of State for International Narcotics and Crime 'Running Guns lays out a no-nonsense agenda for government action that would effectively counter this deadly trade.' Jose Ramos-Horta, National Council of Timorese Resistance and Nobel Peace Laureate 'This book provides a wealth of analysis and outlines concrete steps that governments must take if they are serious about shutting down the traffic in small arms.' Jody Williams, International Campaign to Ban Landmines and Nobel Peace Laureate 'This book tells us what to do, and why we should do it now.' Jan Egeland, former Deputy

Lora Lumpe is with the International Peace Research Institute (PRIO), Oslo.

This is a fascinating and extremely relevant study on the illegal - black market - trade in small arms. The book covers the subject from instances of trafficking by arms dealers, government supplies to rebels in foreign countries, and the utility of national and international regulations. A very good read.
