What is Aeon 14?

The universe of Aeon 14 is based on the premise that advanced, intelligent, starfaring life takes 14 billion years to evolve. In astronomy an aeon is a billion years. In Aeon 14, humanity is at the leading edge of this evolution in the Milky Way Galaxy. Humanity and the AIs they have created spread out amongst the stars and find that they are alone, though it may not always be that way...

Customer Reviews

This book is a quick and easy read, it is the start of books about Sabrina and her crew and their journey to New Canaan. As expected things don't go well, but we build more information on the problems that they face.

Love his writing....have found a kindred SciFi soul.

Good read, looking fwd to the next installment. I realize they make it, but the story is keeping me on the edge.

This the back story of what happened to Jessica and the crew of The Sabrina, while on their way home from a secret mission. A spinoff of the Orion War series and set in the Aeon 14 universe. It's incredibly well written, and the dialog is awesome! The author has a great ability to create books that suck you in, and make you feel like you are part of the story! I highly recommend checking out all of the Aeon 14 universe books! You won't regret it!

So if you like me have been reading the story so far this is a little background on where the crew of the Sabrina was during those 9 years...or at least part of it . Book 2 continues on as this book didn't take 9 years since they found Finneus. Naturally they are still in trouble.

This was a quick read, but one well worth the time, as it fills in some blanks.. can't wait to find out where the kids(and Finneous sp??)are headed to next..

The Gate at the Grey Wolf Star is great adventure and heart stopping situations. Jessica and team are in rare form and when captured, get away. Thanks M. C. Cooper for a great read.

Well that started out with a bang. I hope Sera can wrangle in more of the characters I met here to her version of the Transcend. Esp on Fin's side of the house. They seem like good eggs. The 9k TSF needs good people. Poor Nance. Poor Cheeky. Poor Mel hope many people will get the chance to lay the smackdown on the Caretaker. Jess is her usual self. That is always a plus in my book. Can't wait to see what happens next.
