How To Color With Colored Pencils: The Complete Step-By-Step Beginners Guide To Color Palettes And Coloring Techniques For Adults

HOW TO COLOR WITH COLORED PENCILS

The Complete Step-By-Step Beginners Guide
To Color Palettes And Coloring Techniques
For Adults

Synopsis

How To Color With Colored Pencils (FREE BONUS INCLUDED)The Complete Step-By-Step
Beginners Guide To Color Palettes And Coloring Techniques For AdultsColored pencils are inexpensive, readily available, and can be used anywhere, making them an excellent way to explore your artistic side. The adult coloring book trend that's been sweeping the nation is proof of how relaxing an enjoyable drawing can be as a hobby. By learning to draw from scratch, you can create vibrant, beautiful images that come straight from your imagination.The knowledge in this book will guide you through learning to draw with colored pencils. It includes information on topics like:The different kinds of colored pencils and which ones you should useBasic techniques to use while drawingHow to shade and blend colorsHow to burnish and why it's important for your drawingAdding realistic touches, like highlights and shadows, to make your drawings three-dimensionalIf you've always wanted to explore your creative side but don't have space (or the money) for an easel and paints, colored pencils could be the perfect solution. They're an excellent medium for anyone who wants to draw vibrant, colorful, and detailed images.Download your copy of "How To Color With Colored Pencils" by scrolling up and clicking "Buy Now With 1-Click" button.

Customer Reviews

Ms. Fox is very thorough in describing her viewpoints on how to color with colored pencils. She has also included a few pictures as reference points. However, since this book is aimed at beginners, it would be more helpful if a picture was included for each teaching point. After all, this is supposed to be a step-by-step book. Don't get me wrong, each step-by-step instruction was done nicely and not to the point of overwhelming to a beginner; it would be highly beneficial to a beginner to see exactly what Ms. Fox is referring to each time, instead of only part of the time. Other than that, this book is a very handy reference material to have for a person just beginning in colored pencils.

It's so nice to have this book by my side with all of its resources when working with colored pencils. The instructions are clear and concise and easily understood. I recommend it for any colored pencil beginner.

I couldn't have picked a more perfect book for learning to draw with colored pencils. In very succinct, layman's terms, Margaret names different tools available for coloring, how to create distinct looks with them, and make your picture into a cohesive whole. She doesn't write about creating fantasy pictures, favoring experimenting with more realistic images of your own creation. In my opinion, her advice on using color is beneficial to all beginning colorists.

This a quick and straight to the point read. I found some helpful tips, such as blending colors, that were simply stated and easy to follow.

I learned a few things. Would have liked a few more examples. All in all, quite interesting.

I am just beginning to discover the joys of colored pencils and completely enjoy reading anything helpful. As for a beginners book, this book is worth the read...good tips and lots of encouragement... Thank you!

Basics covered Good for beginners. Shading explained well. I learned about using a razor. Drawing was encouraged, as opposed to coloring books

Very rudimentary. More about drawing than coloring.
