Customer Reviews

After waiting a couple of months for this item to be back in stock, I finally received it. This item was worth the wait! While the pencils are not the best quality, they are workable and it's very convenient to get everything in one package. The book itself is small enough to not be overwhelming but still big enough to color easily. This product was a personal purchase for myself at the normal retail price. I am reviewing it solely because I want to share my experience with other potential customers. I have received no compensation for my review nor do I have any relationship with the seller or manufacturer of this product.

This is a really nice set, especially for someone who would like to try out coloring before investing in a bunch of supplies. It would also make a great gift at under \$12. This book is different than all the other coloring books that I have. Firstly, it is bound at the top of the images, rather than the side (making it great for my left handed daughter). Also, the binding is more like a notepad with a glue binding. This allows it to open and lay completely flat (see my photos), and you can tear out a page even from the middle of the pad. The pages easily remove with no tearing or creasing. I do worry about what will happen to this binding after a lot of pages are removed--will it tear apart over time? The paper quality is very smooth, and quite thick. Each page is printed double-sided, but the image on the back is exactly the same as the front. Not sure why they did this? Inside the back cover is a 1/8" piece of cardboard to add stability. The 'pad' as they call it, measures 7.25" x 7.25" square, and is about 5/8" thick. The full page designs have a nice border--about 1/8" thick--so you don't have to color off the edges of the paper. Some of the designs are centered motifs like butterflies and mandalas. As far as the designs go, most of them are pretty detailed with very fine, crisp lines. This is fine quality vector artwork--no blurriness or pixelated lines. I would estimate that at least half of the designs are going to require fine-tip markers to fit in the areas (see my photos of the variety). Some of the designs are full page, some are centered filling about 60% of the page. Most of the images are going to take quite a few hours. There is a variety of mandalas, flowers, butterflies (lots!), and abstract designs. The only negative for me is that some of the designs have microscopic lines close together (see my photos). I couldn't begin to stay in the lines, and got frustrated. So I just decided to leave those areas white like a border. Overall, this is a great little set for the price!

I love this set. It comes with 4 full colored pencils, 4 2 sided color pencils and a pencil sharpener. The paper feels almost like card stock so it is thick. There are 47 individual pictures but the pages are double sided, with the same image on the back. Sometimes the image is just reversed. The pages do tear out easily but do it carefully as it is not perforated it is glued in at the top. I love that this book is small enough to take with you places, I measured it at 7 1/4" by almost 7" 1/4". When I color all of these pages I will probably look into another set by this company.

The large variety of pictures and the colored pencils are great, it also comes with a sharpener! The pages are double sided with the same pattern on either side, and even with using markers and gel pens there was no bleed through. Also it is very conveniently packaged as all the contents can go back in the package to take along. I bought one for myself and another as a gift.

I've spent many nights relaxing with this kit. I love the square shape for ease of use. The sharpener works well. Pages designs are front and back. It's great!

I haven't colored in years and received this as a gift. I love it! It is a nice small size, great for relaxing in bed and coloring on your lap. It comes with pencils. It is so relaxing! I have since given this as a gift and the person was overjoyed! I would definitely recommend this as it is well worth the money for the hours of enjoyment you will receive!

Great product, just as described, fast shipping.

It is wonderful, very pretty and relaxing.
