I'd known about Marianne and what a great coach she was for some of my friends. When her book came out I bought it right away, and started to read it. I figured it would be like 7 Habit of Highly effective people. A nice, inspiring piece to give the reader a new perspective I started reading it but...eh, I gave up. It didn't seem to have a consistent narrative. HOWEVER! I ran into a friend who had just launched her book, getting to #1 in THREE CATEGORIES. I asked her how, and she said "Marianne." Oh really? I dove into the book again, this time taking it seriously. NOW I understand

what I missed. I started on Sunday night, and work up early Monday morning without an alarm to keep going. After an hour, I shook the book I was holding and yelled "THIS IS FOOD!!" I had been starving for a system, a plan--nourishment---for my business ideas. This book is front-to-back a call to action, a BIG homework assignment. As I did the work, I saw the beauty of the system and saw what Marianne was doing. I hadn't looked at the downloads the first time. Now I did, and I put in the foundational building blocks that gave me a solid footing for actions on my business. I love this book and I have utter confidence in this system. I'm telling all my friends.

I enjoy Marianne's tenacity, authenticity and investment she pours into her community and those just "passing by" for the first time. It is clear through this book that she draws her knowledge from deep experience she has developed by building her own business while helping others get things done. This book is a mix of mindset, tools, encouragement, and nuggets of valuable wisdom. This book is well worth the read no matter the stage you are in when it comes to your business or even prepping you for what you should pay attention to if considering a business venture of your own. You won't regret Marianne's mentoring and company. Do yourself a favor and get this book bought! #getitdone diva :)

Marianne's journey to success is so inspiring and in this book she not only shares bits of her own journey but concrete, practical steps and methods that entrepreneurs can implement to get themselves on their own roads to success. Wonderful resource!

Amazing book, just what I needed and got me very motivated. Its very simply written and I read the whole thing then went back and took notes and my action steps, I was feeling kind of stuck before now, Im steaming along. Thank you and I highly recommend.

One of the best book every GUY in business or wanting to start business should read. I've been in business for myself for over 20 years and wish this book was available back then.

Marianne always provides solid, well-researched and thoughtful information that has helped me reach both personal and professional goals. Highly recommend anything she does.

Marianne's advice is great for boosting productivity. I love this book!
