Synopsis

Most anti-poverty programs lack a system-wide scope of effort. But when ALL stakeholders - people in poverty, communities, businesses, organizations - come to the table with a coherent plan of action, amazing things happen. This book includes clear examples and proven best practices of what is possible when we're all on the same page. It is a collection of articles published by Philip DeVol, co-author of Bridges Out of Poverty and a leading voice in helping people come together to end poverty. These papers give you new models, ideas, applications, and tools that present guidelines and action steps.

Book Information

Audible Audio Edition
