## Customer Reviews

Perfect manual to help me obtain my masters. Not boring, wording and skill test are great.

A LOT of typos and grammatical errors. Good information, I think, just hard to read because of all of the errors. After reading through more of the book, I discovered some flat-out WRONG information. For instance, the book indicates that the best-selling book in the world is the Guinness Book of World Records, when it's pretty common knowledge that, ACCORDING TO THE GUINNESS BOOK OF WORLD RECORDS, the BIBLE is the best-selling book of all time. There are other errors in information that I've found. Although, there is some good information, I have to give a warning against purchasing this book.
