## Customer Reviews

Looking to eat healthier or just a change of pace. This book I found on booksofthemoth.com's app is easy to use. Meals are quick and for the best part healthy. Definitely would recommend getting this book.

Recipes are pretty simple and straightforward which is important to someone like me (aka culinary

challenged). I am not vegan so I may commit the sin of adding meat but at least the other stuff is quick and tasty.

I've been interested in not necessarily going vegan, but learning to make more vegan food. So far this book has been a great resource. Lot of combinations I hadn't thought of.

very good book. easy to read and understand. great for beginners.

Great e-book, easy to follow!

I am in love with eating meat and dairy, but as I get older I want to live a more healthy lifestyle. This book has easy to follow recipes and the amazing part there is such a variety recipes that it will make my transitions to a more healthy lifestyle easier. I look forward to sharing this book with my friends and family, a book you will certainly enjoy :-).

Some delicious simple recipes. No real format. No pictures.
