Book by Maughan, Jackie Johnson, Maughan, Ralph

This is the older version of the falcon books hikes, so it does have a few of the same ones. That being said I bought it because it also Has a few older hikes that are not as highly published and therefore used. I find the descriptions of the couple hikes ive done out of it to be accurate still and quite detailed. I intend to try hike number 29(to lake 33) late this summer as its one of the hikes that are less commonly known. Overall very happy with this purchase and would recommend it to anyone who enjoys hiking with less people(assuming the get the new falcon guide also and highlight the common hikes).
