Andi Unexpected (An Andi Boggs Novel)

Synopsis

After the sudden death of their parents in the jungles of Central America, twelve-year-old science geek Andora • Boggs and her diva teenaged sister, Bethany, move to rural Killdeer, Ohio to live with their eccentric twenty-something aunt. And while the timeworn house has been home to the Boggs family for generations, Andi feels far from at home. Exploring the attic in her grief, she discovers proof of another Andora Boggs in the family tree hidden in a Depression-era trunk. Despite the meddling of the citizens of Killdeer, Andi and her new friend, Colin Carter, are determined to find out who this first Andora was, how she vanished, and why no one in town wants to talk about her. As more and more unanswered questions pile up, Andi and Colin must decide who they can trust with their secrets and who is interested in Andora™s story for the wrong reasons.

Customer Reviews

This is not my usual genre...I guess that should be pretty obvious since it's not only

an young adult (YA) novel, but specifically for ages 8-12. Opening the book, I promptly ãœput myself ãœ in the place of my grandchildren, and began reading ãœ|The writing style, in my opinion, is just right ãœ| intelligent, interesting, exciting ãœ| and it ãœ™s written from the perspective of a twelve-year old. I am sure my grandchildren will love reading the series! Amanda Flower does a superb job with these characters ãœ| Andi has the best disposition ãœ| and Colin is proving to be a good friend to her. Her sister acts just like an older sister would behave. Her aunt is determined to make a home for them, along with showing the proper authority and discipline that she feels they need. The other characters are helpful, interesting, and very real. Moms and Dads will enjoy the story; it ãœ™s a great read for bedtime. Children will enjoy the look of the chapters ãœ| If you ãœ™re looking for some great additions to your home library, I would heartedly suggest the Andi Boggs series, beginning with Andi Unexpected ãœ| then add Andi Under Pressure.

Andi Unexpected is an excellent middle grade read. This book is for boys and girls because it features a team of boy and girl sleuths who will almost stop at nothing to uncover truth. I am an Ohio elementary school librarian and the response for this book from my students has been outstanding. The reading and interest level is great for advanced 3rd grade through 6th. The story entices the kids to think about the characters and their motivations. Unraveling the mystery is top-notch fun! Andi Unexpected would be a wonderful kids book club discussion and lead-in to the study of the Great Depression which began in 1929. Virginia from Ohio

A book for young adults. Fun. Easy to read.

Great book. Got it to read to see if my nieces may like it. I got caught up in it and read the whole thing. And then bought the other ones. It's tough finding decent books for tweens. They're not quite ready for some of the teen books, but get bored with writing that doesn't challenge them.

This book was incredible. The plot was well thought out and the adjectives really made the story come alive. This is a great book for anyone from fifth to seventh grade who loves mystery or suspense books. I highly recommend this book!!!!!!

Good book This book is my favorite I think everyone should read this book I am very picky and I love this book

I purchased this book for my grandson who is 8. I read it first since I like mysteries. I liked the book very much. Grandson is reading it now..

I hope there are more books to follow. I recommend it to intermediate readers, grades 4-6. Can't help but love a mystery!
