How Do You Light A Fart?: And 150 Other Essential Things Every Guy Should Know About Science

Synopsis

Fireworks and grenades. Grills and campfires. Burps and farts. Men get a kick out of things that go boom, things that cook with fire, and all forms of bodily gas. What they might not know is that science is what makes it all happen. This book answers all the questions guys have about their favorite topics, such as: How do you make a Lifesaver spark? How do you hotwire a car? Why do kegs float? What is PMS? Why doesn't a cell phone work in metal buildings? Serious science mixed with outrageous humor, this book promises guys the need-to-know info on sports, cars, technology, women, bodily functions, food, and more!

Customer Reviews

Very informative. Very entertaining. Easy reading. Short, but right to the point answers for questions I have asked in the past. HOWEVER, what I found more amusing was turning a page, reading the next question and thinking.....YEAH, how DOES that work or how DO they do that.

After my husband read this book from cover to cover, I found myself reading this at the beach. It is

filled with quick 1 to 2 page tips on all sorts of information from "How to hot wire a car", "Why is there a metal rack in your microwave" and of course the obvious "How do you light a fart?" Funny, interesting fluff. If your man isn't much of a reader but more of a skimmer, this is the book for him. Who know's, you might pick up a thing or two.

It was so funny!!!!!! A must read!!!!!! You thought you learned everything in high school and college!!! This book is more for males rather than females. It still will stay on my bookshelf on my Kindle!!!!

love these books. makes you think and laugh.

Brand new. No tears, no damage to binding, no markings. Exactly as described. Arrived in record time and was a great Xmas present. Thanks again

I gave the book to one of my grandsons, and he loved it.

Interesting read but I didnt learn many interesting things

funny
