Customer Reviews

It's easy to get lots of information on line these days, but switching back and forth among websites can get confusing so I still like to have something that is compact and insightful that I can refer to. I feel I got some good recommendations and it's nice to have a map to refer to as well.

A good guide but covering sych a large area the detail was lacking on many areas.

Clutter with so much information... So much that is all over the places...

Not as useful as i thought. the hotels/restaurants recommendations are not useful as they are usually the most expensive choices.

I like how it was broke down very nice good imfo

Perfect book and maps included. Very informational.

Just what I expected

very helpful for our 2 week trip to California.
