I bought this book thinking of it as Zen Inspirational not even considering zentangles. I used to really love the patterned coloring books but as I have aged I find the pages overwhelming and beings as I color and meditate while I do, I needed to change the type of coloring books I know purchase. What I like about this book is the uncomplicated coloring (giving it the Zen feel). the suggestions offered on the inside of both the front and back cover. The author/illustrator includes examples of some of the pages already colored in, on the inside back cover. I don't copy her coloring but seeing them colored in, inspires me with my own color choices. I bought the flower book as well and love it. I know I will be buying more Joanne Fink books.

I clicked on the "Look Inside" and everything...but I honestly was expecting a more complicated zentangle coloring book. More "zentangles" and less open blank spaces. But then, this is my first "zentangle" book (my second one is on its way!!!) so what do I know?? It arrived faster than expected and I DO like it.

I love this book! As a school counselor, one of the many things we discuss with students is having a healthy, peaceful outlet and to come up with activities that help relax the student particularly when they are stressed, overwhelmed, anxious, etc. Obviously different activities work for different people, but this coloring book is wonderful. The page designs are complex enough to keep someone interested, but the designs are not tedious. The pages also have wonderful, inspiring sayings and quotes (not cheesy!). I highly recommend this coloring book as a gift to someone or one's self. The pages are one-sided and a little thicker, so whoever is using it can use paint, markers, etc. without having to worry about it bleeding through. I have ordered 4 so far and highly recommend this book.

One of the things I love about Joanne Fink's coloring books, is that she creates images that have a lot of space within them, to add your own patterning and tangles. I love that she shares her faith in this book, with scripture and other life affirmations. You will not be disappointed if you decide to purchase this book! Enjoy and stay Zenspired!

As advertised... "Zenspirational"! Relaxing and fun. Coloring in these books is mood changing! From stressed to relaxed. From irritated to calm. From sad to encouraged. And the messages are always uplifting. Thank you Zenspirations!! You've helped me "get away" for a while...

Joanne Fink offers great line drawings for those who want to step outside their comfort zone and color to their hearts content. I think the white spaces are a perfect backdrop for the whimsical designs in the book. Highly recommend this book for inspiration and coloring. Nice layout, one-sided page set up and sweet quips.

I wish I could have seen what was inside this book. I thought I would get the opportunity to look at beautiful and creative designs, inspiring me to create similar shapes. It is much too simple. The cover gives more design than what is inside the book. There is more wording than designs inside the cover.

Nice inspirational sayings but too simple to color. Will keep for when I don't want a challenging picture.
