Firstly, this book could stand on it's - for any type of ukulele playing. But all its tunes have tablature specifically for Lower G. It's been so hard too find music that sounds right with a Low G strung on the 4th string , that i even thought of pulling the string and replacing with a High G. My soprano has a high G. So I've always liked have the variety. And lower G has that smooth lower sound to it...Bottom line...buy!! You won't regret it.:)

Learning to play the ukulele and needed some tunes that I know without too much "detail" and keeping the tunes nice and simple

Five stars had it come with a CD. These are very nice arrangements which take advantage of the low G. It is a book well worth having by this renowned author. Check out his catalogue.
