I am more into Doreen's other books than this one I find I really like the audiobook of it though. I save the physical book for reference. This was my first Doreen book ever and didn't keep the first two copies, but got a third copy and changed my mind. I start off just getting her card decks and as

the years went by starting getting more of her books and cds and of course card decks. I think if you have her Goddess Guidance card deck this is a great book to have to learn more and the goddesses especially and there is information on angels as well. The best angel book of Doreen's is Archangels 101 though. She talked a lot about the places her and her husband at the time Steven Farmer visited so after awhile it got boring, but the end of the book is good to have for reference. So if you want to know more about goddesses and like Doreen gets this book. I have bought this book for three people I know despite how I felt about it.

If you are new to this kind of book and are exploring into the Goddess and Angels this book is not for you. To me this read like a travel book, and the author did not explain much about the Goddess and all she said about the Angels is to call on them like they are your servants. If I wanted to read a book on travel and a look at me aren't I wonderful kind of book, I would have gone to a travel book store.

I am a big-time Doreen Virtue fan, and this book does not disappoint. I learned a great deal about Goddesses and Angels, and very much enjoyed reading this. It is wonderful to pick up if you are having a hard time, as it can help you quickly clear lower energies. I highly recommend this book!

Loved it! really answered a lot of questions about my own path I'm on at the moment. Now working through many of her other books. Well worth the read!

This is a great job. I admire Doreen's work for so long, yet she surprise me more and more.
