Ven conmigo! Level 2

Since my school district has refused to buy any new textbooks since 2000, I buy up cheap copies to keep in my classroom. By the way, even though the text was published in 2000, the content is from 1996. My students love to laugh at the fashions and "celebrities" mentioned in the book. Oh, and don't forget the chapter on technology. Can you say "fax machine" in Spanish? My students can.

We use this curriculum for Spanish in our homeschool and it is extremely easy to learn from. We used Rosetta Stone first before we learned about this curriculum and Rosetta Stone was a good foundational tool as well. We would highly recommend this curriculum for learning Spanish 1 and 2.

I have been using the textbook to tutor. This is a great supplement for the book. Lots of great exercises and practice. They even have a tutorial above many sections so that kids can have an idea of what they are conjugating.

The book looks as though it has never been used. If the name of the student did not appear in the

book, I would think it was new from the publisher. The binding even crackled the way new textbooks often do when it was opened.

I had to replace this book because my son lost his, and I could not believe the price I paid for this BRAND NEW book, and I received it right away.

old beat up textbook for 5 bucks. love it.

it was better than the one I previously had!

Thank you
