While I am sure some may read seeking to discover some great here-to-fore unknown truths, I am not sure that is the book's greatest strength. The story line is predictable (but that isn't all bad is it? We all tend to be predictable :-)) , so...the 'surprise' elements were anticipated. For me, the greatest strength is how the book may be used to prompt discussion about leadership traits and pitfalls. Case in point: We all 'know' it is better to work first on self before we suggest change to others...but it is helpful to have thoughts like that pointed out via a non-threatening parable. I secured the book when I learned how it changed the life and outlook of Coach Meyer (Go Buckeyes!!). I knew nothing of the author and had I checked (which I did not), I would have seen the publisher and known the book would probably involve some type of a faith aspect being presented. To me, the faith aspect is non-offensive but it would otherwise limit my use within a college classroom. Am I glad I read it? Yes. Is it the greatest book ever? No. Intriguing story of a Coach asking deeper motivational questions.

I was encouraged to find that this book emphasized the why of leadership more than then what or the how. Through a story about a successful but selfish high school basketball coach who meets a school janitor with great wisdom, we learn that leaders must lead from a heart of love rather than from a reward/punishment mindset. The coach goes through a personal transformation as he learns

to connect with God, who then enable him to connect with his family, his team, and his friends. Along the way, Gongwer helps his readers take stock of our own lives. Readers are encouraged to ask, "Am I embracing my place, setting my priorities, and living with passion?" Although Gongwer is not a craftsman with words like Pulitzer prize-winning author Marilynne Robinson, he makes his points well with his targeted readers, businessmen and the sports-minded. It's a quick read, using the Andy Andrews and Patrick Lencioni story-telling and principle-sharing approach. I liked the book and appreciated the simple, heart-felt, Christ-centered, and straightforward message. I think Gongwer's approach - especially with the thumbs up application that a notable coach like Urban Meyer has made - will have a positive impact on the lives of leaders so that they lead... for the right reason - for God's sake. This would be a good book to share with the business leader and sports fans in your life. I will likely use the drawing and some of the principles with the men I am currently discipling. Thanks, Todd Gongwer for this contribution to leadership literature that can result in helping some businessmen (who might never go to church) connect with Christ.

Excellent read on the very purpose of leadership, something we all struggle to define. Quite often leadership becomes all about the leader who is in pursuit of power, money, recognition, etc. In reality, you need to have a purpose to serve others and care for those you lead. The same leadership style at Jesus exhibited. Very insightful story about true servant leadership.

A must read for any person in a leadership role. If you are a coach, teacher, business owner or in any capacity you need to read this. It's written as a parable but you will easily relate to all the characters. You will learn many life lessons from this book.

As a leader in corporate America I have read several books on leadership and styles. While they all have take always I will say "Lead for God's Sake" has had the biggest impact. It started with just reading the book, which I could not put down. I found my self reading on my iPad while standing in line at the airport or wherever to just finish it. I was moved and emotionally tied to the story of the book. At times bringing tears to my eyes and just feeling the presents of Christ in the moment. So nice to see how you can tie leadership skills with solid biblical learnings and see results. I have already gifted the book to others and recommend to anyone else I have a chance to talk to about it. Everyone has a leadership role from leading teams, groups or families. And everyone can benefit from reading "Lead for God's Sake". I can't help from thinking that this is exactly what we are seeing from Tim Teebow and his walk in Christ and his role in the NFL. The book will draw you in from

chapter one and leave you emotionally moved at the end. I highly recommend reading "Lead for God's Sake" and you will not be disappointed. I am not a blogger or professional reviewer, just a child of Christ and moved by a wonderful book that teaches me better ways to lead my teams, friends and family. My wrist band "Lead for God's Sake" reminds me everyday who I am and my purpose. There is a reason for everything and we all have a purpose, read "Lead for God's Sake" and you will find yours as I did.

I highly recommend this excellent book...especially for business leaders, coaches, and parents. The parable format was engaging and powerful in communicating the essence of leadership. This book will challenge you to think about why you do what you do.

A must-read for anyone looking to improve how they interact with & lead people. The text is presented in a simple, understandable way that makes sense of what's important to make an impact on other people.

This was an amazing book! First chapter dragged, but soon I literally couldn't put the book down until I finished it.
