Pedro M. Reyes, Ph.D., is an Associate Professor in the Hankamer School of Business, Director of the Center for Excellence in Supply Chain Management, and Lawrence Schkade Fellow, Baylor University. His research has been published in several journals, including International Journal of Integrated Supply Management, International Journal of Operations & Production Management, and International Journal of Data Analysis and Information Systems. Dr. Reyes holds an annual symposium on RFID at Baylor University. Prior to his academia career, he worked in operations management for more than 20 years.

Everything I needed and got it in a timely fashion

So you are in pedro reyes class. He forces you to buy his own book for over \$40. The good news... he doesn't take attendance. This book was actually pretty good I think it would have been a worthwhile read at \$7 or \$8. At forty dollars it is laughably gouged.

very recommend . perfect. good product with high quality. Very sharp and strong product. It was my first kind of cutting product for food and I am very impressed. I've had it for a few months now and its sharpness is still the best of all the knives I have. a present ,
