Customer Reviews

Not very thorough, limited information. Nothing that is not available on google. Guess we are moving totally into the digital era. Watch out for the restocking fees! It's almost not worth getting any hard copy. I was going to put this in the RV for travels, just to refer to but doesn't have much info to offer. If you are older or don't have any access to the net, then maybe okay to have as a backup reference. A phone call to any state office would be more helpful however.

Not much information. It's in telegraphic style and all that is also available on the web.

Very informative!

Love it

just what i was looking for

I was hoping to see some pictures of the state parks along with their descriptions.

It's a bare essentials book. But I gave it less stars because it started on page 7. Poor quality printing.
