Heaven Breaks In

Synopsis

Peeling back the curtain of spiritual warfare in today's world ...Angel Littleton is on his first assignment: Davis Lewis Chandler, a first-year college student who's slowly drifting away from the Lord. Except Davis, like most, is unaware of the war being waged for his soul. With the help of Archangel Michael himself, Littleton must unmask and overcome the spiritual enemies endangering Davis's faith. Can the angels break through the darkness in time? And, can God restore what's already been lost? Awarded the Gold, Silver, and Seal of Approval by Literary Classics; described as a modern spin on C.S. This story is a great reminder of the spiritual warfare that is constant in our lives and how the Holy Spirit is ever-present to fight battles along side us. This is an especially good book for college students, their parents and grandparents.

it's been a long time since I was moved by a book. This effort is very similar to The Screwtape Letters and couldn't be done better. I totally enjoyed the book as it it home in many respects. the prayers were very much appreciated!!!

Even though it was fiction, it gave me some things to think about, spiritually.

Whether you believe in Heaven or not, this is not a book you should miss!

Enjoyed this book. Great reminder of the spiritual warfare we are all in. Especially our children and families.

I read this book in a couple of hours during Hurricane Harvey. Can't wait for my senior in high school to read it. So powerful!!!!

Has hard to follow

I planned to start this book and read gradually over time. However, I finished within 24 hours of starting. While it is not a long read, the narrative is easy to read and flows seamlessly. I was surprised at how well Mr. Capps captured the reality of life on a modern day college campus. I felt like I went back in time thirteen years to my freshman year in a large southern university. I wish I had read a book like this one before taking the "long" road to my destiny in Christ. This book should be placed in the hands of every high school senior. Mr. Capps works in sound, biblical truths while captivating the reader to just read "one more page" until he or she discovers that there are no more pages. As a missionary to Latin America where the spiritual realm (heaven and hell) is very prevalent and the miraculous is normal Christianity, I believe the church in the U.S. is asleep to the spiritual war around us. There is a great slumber where many in the body of Christ in the U.S. choose to rationalize or ignore the spiritual realm based on their lack of experience as opposed to relying on the truth set forth in the Bible. I believe this book is a wake up call to the need for our young people to have solid support from mature believers and the church while they encounter an onslaught of attack at a vulnerable stage in life. The book does not focus on being fearful that there is a demon behind every corner, but instead emphasizes the authority we have in Christ and how Jesus loves us so much that he has surrounded us with ministering spirits to protect us. It is clear that the author knows his Bible but has also received revelation from the Holy Spirit about grace and the Father's love. I applaud Mr. Capps on his work and look forward to the sequel!
