## Customer Reviews

McGraw-Hill Education Editors guarantee the highest standards in test preparation and educational excellence. --This text refers to an alternate Paperback edition.

I bought this after needing to study for the GED after being out of school for 24 years. I passed my

3rd test today, I only have math to go. If you study this book, you will pass. Every question was addressed at some point in this book. Tons of sample questions and review questions, 2 practice test for each subject. As I said, I still have math to go which will be my greatest challenge but this book prepared me well for language arts, science and social studies. It's a huge book packed with tons of info. I actually loved the social studies portion...I learned so much. I recommend this book for sure \*\*updated august 13, 2016-I took my math test today and passed (yay! I'm all done!). I have a lot of issues with math, and yes this book helped but I found it to be a little lacking in explanation on how to find the answer to difficult math problems. If math comes easy to you this will be all you need, if not, I would get a book that is focused on math process to supplement the math portion in this book. Again, it is very thorough and I passed all test on the first try with just this book and a little YouTube help on the math section. I wish everyone seeking their GED the best of luck, it's a great feeling when your finally done

Looking for a product to use to tutor someone working on their GED. This is a perfect workbook for the mathematic portion of the GED. I'll be looking for the other topics this same publisher has for the other sections of the GED.

So much easier for a person to go at their own speed, rather than checking it out of the library.

This is a great book to prepare someone for a GED test. I covers everything needed to achieve a good grade in order to get a GED.

Great product, half the cost of local stores

This has a lot of information. Was a gift. They said it help them

I was and am very pleased with the item ! I had to take a break from my studies because I had to come to New York to take care of my foster motherwhen I return to Florida I will definitely resume my studies it had so much information I thought I knew for the test but now I know u have to be dedicated and studythen go and try for the GED ! This book is great thank u McGraw -Hill education
