Customer Reviews

This is the only book that I know of, to date, in the stained glass industry of original prairie style window designs. I learned about Frank Lloyd wright in the early 90's when I had to do research on his style in order to design lamp- shades for my employer. I was really taken by his "prairie style" of design and felt a connection to my own work. Making the designs for this book was a joy because I really like this style of design.

Alex Spatz grew up in the midwest and got involved with stained glass through a college course while studying for a B.F.A. degree in studio art. This led to a job designing decorative mirrors and a start in the decorative accessories industry. Throughout his career he has designed glass and mirror products as well as stained glass windows, lampshades and gift items for nationally distributed companies. He now writes and sells design books for stained glass hobbyists.

I was looking for designs for rug hooking, and these are quite readily adaptable. The book includes

information about the scale used in the designs, which makes it very easy to re-size them. There is a nice variety of designs in the book, and I look forward to using more than one. I adapted one and began hooking a rug for my living room. I recommend this book of designs for anyone who is interested in Prairie or Arts and Crafts designs.

It's O.K., considering that Wright's windows are all rather mundane.

Arrived in excellent condition

I am a fan of the Arts and Crafts Movement in the United States, as exemplified in Mission and Prairie designs. I used this book to assist me in designing tile and mosaic murals using themes from the Arts and Crafts period. With a little time, a copy machine, and some colored pencils, you can make some original designs for use in your own home or business.

The book is very useful for the ones who want start on the Praire Design stained glass technique very popular on Frank Lloyd Wright's praire houses.

This book was exactly what I was looking for when I needed stained glass inspiration for my home addition. I love Frank Lloyd Wright style and this book was very helpful.

This is the book I ordered to make the window for our front door. Just what I wanted to see if I can make.

great book for collectors or crafters
