Funny Book with a great price and great seller!

One of the things "they" tell you in writing classes is that one should "show the reader, not tell them." McManus shows his stories so clearly to the reader that one can see every detail in the story. Then there is the sheer hilarity of his stories. Reading allowed is not as popular as it was as a form of family entertainment. Once past reading bed-time stories to four-year-olds, Dad is pretty much done with this pacification method; electronics are just so much easier. However, with a copy of this, or any other of McManus's titles in hand, a man can keep his family laughing till they weep for many years to come.

I have given more copies of this book than I can remember. I first learned about it while driving a carpool of kids to school. It was being read on PBS in the Charleston, SC area. We all loved it, and the kids couldn't wait to get in the car to hear the next chapter. I have read other books by Mr. McManus, but this one is the best. As an English teacher, I have also read these stories to my students.

Patrick McManus should be required reading for all outdoors people. With many of his stories I can see my camping/hunting/fishing expeditions in real life.... as though he had been following me around writing my adventures.

I always come from reading his stories with tighter abdominal muscles and flushed tear ducts from laughing so hard! His tales are a bright spot in an increasingly dismal world. I highly recommend any of his books.

The book itself is hilarious. I bought it for my father-in-law as a gift. It's a funny book about his life. It's my favorite out of all the books he's written. The book did come with a black marker mark on the outside of the book, the only reason it didn't receive 5 stars

Another one of Patrick McManus' books. Lots of little stories some of which you can't help laughing out loud. So be careful where you read them. You may have to explain your outbursts of laughter.

Pat can make me laugh out loud in a mortuary. There's simply no other way to put it, I love his style & stories. Especially since my rural childhood can relate to a great many of the first-hand.
