Customer Reviews

Peafowls, Peacocks and Peahens provides basic information on owning peafowl. I was hoping for something more indepth. This book only provides high-level information about peafowl care and should have been proofread before it was published. There are numerous typos, sentence fragments, and fuzzy images. At $19.97, I feel it was overpriced for the little amount of information you receive and the poor quality of the text.

Good basic introduction to Peafowl for beginners. I was a little disappointed by the briefness of the information,but it was a good starter book.

The book is all that it says it will be, but nothing more. I was hoping for a step-by-step guide for hatching peafowl and raising them. The author touched on each area of raising peafowl, but I got

just the entree. I wanted three courses with dessert. Tell me there is a second book coming soon.

The book is ok. A lot of fluff. Nothing I wasn't able to find on my own in 5 mins using google.

Good, informative book. Unfortunately the pictures were in black and white, not color.

Learnig so much more about peaoocks. Great to get if you are trying to deside if you want to raise peafowl

Excellent summary and introduction on peacock raising and management
