Disinfection Of Root Canal Systems: The Treatment Of Apical Periodontitis

Synopsis

Clean root canal systems are essential for successful endodontic treatment. With contributions from leading endodontists from around the world, Dr. Nestor Cohenca here presents the etiology of endodontic disease caused by the endodontic biofilm and all therapies available to predictably disinfect the root canal system, thus increasing successful endodontic outcomes. Disinfection of Root Canal Systems: The Treatment of Apical Periodontitis is an evidence-based manual that describes root canal anatomy, the endodontic biofilm, and the role of disinfection before presenting the most up-to-date methods of irrigation and disinfection. Individual chapters are devoted to each method, such as positive pressure irrigation, apical negative pressure irrigation, sonic activation, photodynamic therapy, laser technology, and ozonization and electrochemical activation. Clinical photographs throughout show proper irrigation and disinfection techniques.

Book Information

Hardcover: 376 pages

Publisher: Wiley-Blackwell; 1 edition (September 15, 2014)

Language: English

ISBN-10: 1118367685

ISBN-13: 978-1118367681

Product Dimensions: 7.5 x 0.9 x 9.7 inches

Clean root canal systems are essential for successful endodontic treatment. With contributions from leading endodontists from around the world, Dr. Nestor Cohenca here presents the etiology of endodontic disease caused by the endodontic biofilm and all therapies available to predictably disinfect the root canal system, thus increasing successful endodontic outcomes. Disinfection of Root Canal Systems: The Treatment of Apical Periodontitis is an evidence-based manual that describes root canal anatomy, the endodontic biofilm, and the role of disinfection before presenting the most up-to-date methods of irrigation and disinfection. Individual chapters are devoted to each method, such as positive pressure irrigation, apical negative pressure irrigation, sonic activation,

photodynamic therapy, laser technology, and ozonization and electrochemical activation. Clinical photographs throughout show proper irrigation and disinfection techniques. Key Features: Clinically focused to be of practical use to endodontists and general dentists Discusses the latest infection-control methodsâlasers, ozonization, electrochemical activation Photographs and illustrations show proper techniques and equipment

Dr. Nestor Cohenca serves as Professor of Endodontics and Adjunct Professor of Pediatric Dentistry at the University of Washington. He is the Director of Endodontics and Traumatology at the Center for Pediatric Dentistry and Seattle Childrenâs Hospital. Prior to his current appointment, Dr. Cohenca was on faculty at the University of Southern California and The Hebrew University of Jerusalem. He has published extensively on endodontic topics, and speaks at U.S. and international dental conferences.

Good book although expect more from it. Topics such as root canal irrigation should have more insight and thorough information

Excellent book!!!
