Synopsis

Windows Into Heaven brings the stories of 30 different families that have been blessed by having someone with Down syndrome in their lives together to celebrate their amazing experiences. These stories give the reader positive insight into what someone with an extra chromosome can bring into their life, whether that reader be a new/expecting parent of a child with Down syndrome, someone seeking additional insight into Down syndrome all that Down syndrome is, or a person that is simply looking for uplifting and inspirational stories. Though children and adults with Down syndrome have intellectual disabilities, this books highlights the endless joys and possibilities they bring to the lives they touch.

I know an OB/GYN who gives this book to all of his patients who have a Downs baby. His stories (told in generic terms because of confidentiality!) are ones where mom and dad go from sorrow and despair to hope and acceptance; even to sheer joy - and the book is a huge ingredient of moving them to that. If you or someone you know is touched by the beauty of a Downs baby, this is the book you give. This is the window into that world that we would all be so lucky to be touched by.

My wife really wanted to read this book, so I bought it. After reading it, I asked her what she thought. She was unimpressed. Being the parents of a child with Down Syndrome we have read lots of books on the topic and this one pales in comparison to almost all of the others, according to my wife.

Nice and valuable. Satisfied. I have owned many knives over the years, but this is the first real" bread product that I have ever owned. I really like the construction and design. It works exactly as advertised. I have used it on bread and tomatoes and it did the job perfectly well. I would recommend this product to anyone who needs a quality bread product." so fast, receive it next day . Kelly needs it ,

This book is a Godsend for my practice where we deliver Down Syndrome babies. I give it to all of the parents who have a Down Syndrome baby. It's always a little scary for parents encountering it for the first time and "Windows Into Heaven" helps parents to understand that, first, they are not alone, and second, they have been given a gift few will receive in this lifetime. Delightful book you should have if you've been touched by Down Syndrome.

This was an inspiring and uplifting collection of personal experiences. It gave me encouragement and that "I've been there too" feeling. I would recommend it to families and friends who are involved with a child with Down Syndrome. It is gentle enough to reach out to those who may feel unsure how to relate to a new family member with Down Syndrome.

I love this book because it takes a wide view, including stories from moms, dads, and grandparents about babies/kids/young adults/adults with Down syndrome. One theme ties us all together--our deep, abiding appreciation of the way Down syndrome has touched our lives.
