Jumpin' Numbers And Shakin' Shapes - Volume 1 CD

Synopsis

Jumpin' Numbers and Shakin' Shapes includes a short song for each number zero through ten, the seven basic shapes, and a counting song from 1-100. These songs, in conjunction with the Jumpin' Numbers and Shakin' Shapes flash cards, help children to memorize the numbers 0-10 and the shapes, and practice counting to 100. These catchy songs are the perfect complement to any early childhood curriculum. Download the printable song lyrics and movements for fun and active learning, or get it on DVD in addition to the CD and let your children dance right along with Heidi on screen! Topics Covered Are: zero, one, two, three, four, five, six, seven, eight, nine, ten, 1-100, circle, square, rectangle, triangle, oval, rhombus, octagon. PLEASE NOTE: These songs are intentionally short to fit the attention span of the average 3-6 year old child! (Many songs are less than one minute long.) They are written to get straight to point, state it in a way that is simple enough for young children to remember, and then move on to the next lesson. That way, if your child's attention span is only five minutes, he or she should be able to learn the concepts presented in 6-8 songs in just one sitting. With repeated play, children should be able to learn ALL of the concepts in the songs quite quickly!

Love this CD for my Pre-K class!

Used it for focusing on numbers in my classroom! Songs are catchy and students love them!!!

Love the CD!!! My Pre-K students are having fun singing and dancing while learning!!!
