Customer Reviews

James Patterson has had more New York Times bestsellers than any other writer, ever, according to Guinness World Records. Since his first novel won the Edgar Award in 1977 James Patterson's books have sold more than 300 million copies. He is the author of the Alex Cross novels, the most popular detective series of the past twenty-five years, including Kiss the Girls and Along Came a Spider. He writes full-time and lives in Florida with his family.

Couldn't stop reading! The writing was, of course, juvenile, as it was asked at a young crowd. But holy eff, was it ever intoxicating! I need more! The characters are loveable and 3-dimensional (which seems rare in books written for a young audience) and it makes it that much more heart breaking when bad things happen to them. I actually started reading this after I picked up the manga and I have to say I love being able to clearly picture the characters in my head. Friggin' awesome series, seriously. Harry potter looks like he had an easy life compared to the kids in the flock!

My son is hooked!!!!!! First author that his been able to do that, although I am not surprised...i am hooked on his adult books!

I really like this for a fun series for kids and grown ups alike. The kids will love it and the grown ups just might get the message. Even for this this ole lady it was a fun ride.

The books were very nice. They were shipped within a reasonable time period. I would buy from this company again. I absolutely love these books. Soooooo good. Recommend for anyone and everyone

In this thrilling collection of Maximum Ride, James Patterson whips up all he can and then dishes it out on a warm plate fresh for you to eat. But Max on the other hand tries to save the world from harm as you read the book, pulling you in as you read. In some other novels, someone would tell you the story themselves, but in these particular novels, and others by James Patterson, you get to feel what it's like to be the main character. I, Jason Reichel, recommend these novels and others by James Patterson.

I believe James Patterson has suprised me once again. This is an amazing series that I recommend to anyone who likes mystery and action genres. If you have enjoyed James Patterson's books before you will most likely love this series. There was the perfect blend of action, comedy, and mystery all tied up in all these books. I am truly inspired.

The order was satisfactory as to when it was delivered, but the books which were supposed to be lightly used were in pretty bad condition. Scratched up and even a little tear in one, comparable to what you get inthe used book stores locally. I think i have ordered from this place before and have been very happy with the results, but this time, not so much. being as they were a gift, and not just for me, it was worse.

If you like James Patterson you may like these books. They are not his typical murder mysteries. They are about children who were genetically experimented upon, stolen from their parents, and raised in a "school." If you can get beyond that, you will be drawn into their adventures as they try to live their lives.
