Customer Reviews

The Fifth Estate Publishing Co. has a reputation of translating and compiling old texts, ensuring these books would continue to last the test of time. In order to make sure they will last, the public must have access to it in their native tongue. If you go to their website you'll find they are not only working to protect Jewish, Netzari (Nazarene Judaism, Messianic Judaism), Gnostic and early

Christian writings, but they are also working on preserving books from the East. They present the facts in detailed introductions of every book in this massive compilation of forgotten scripture. Plus, they include quotes from other verses found in the canonically approved Bible, showing that indeed these lost books inspired what is found in the Bible. For example, The first Book of Enoch is sometimes quoted word-for-word throughout the Hebrew Bible and the writings of Yeshua's Talmidim (Jesus' Disciples). Of course, you wouldn't know that unless you had access to Enoch 1. From my personal view, Yochanan's (John's) Book of Revelation is actually part two of Enoch 1. Enoch confirms what was seen by Yochanan, two witnesses to the same events (though sometimes described differently). If you are new to discovering the forgotten scriptures, here are a few things you should know: The KJV and NIV Bibles and others like it, are simply incomplete. They are the smallest, most condensed and altered versions you can find. Though the Catholic Bible is not my favorite version (nothing against Catholics), it includes some of the books that are found in this compilation. The next would be the Greek Orthodox Bible which contains even more than the Catholic Bible. Ultimately, the Coptic Ethiopian Bible is the largest in the world with a total of 81 books. Don't worry, much of this compilation here on has the Ethiopic texts that have been concealed and hidden from the Holy Roman Empire - that's why they survived. People fear what they don't understand and book burning was the norm. Instead of reexamining their theology, dogma and interpretations it was more convenient to ban and outlaw books that questioned the status quo. Additionally, there is also the Septuagint. Compiled by the Greek Diaspora (Jews living in Greece), it was the first translation of the Hebrew Bible into Greek with the Apocrypha. The Psalms of Solomon and the Odes of Solomon are not in this Encyclopedia but can be found in the Septuagint. Some compilations of the Apocrypha are bigger than others - example: The Story of Ahikar and all four Maccabees are not included in this Encyclopedia. (my other copy of the Apocrypha only has the first two Maccabees) If you buy this and wonder "where do I start?", I personally suggest you read the Book of Wisdom (Wisdom of Solomon) first. Before you read it, pray. Pray that G-D will guide you and that He opens your eyes, ears, hearts, minds and souls to see what G-D wants you to see and not dwell on the man-made dogma and traditions of interpreting. Pray that G-D's interpretation and intent of the book is revealed to you. This will only happen if you are willing, if you have a sincere heart you will come to know the Gift of the Spirit of Wisdom and Understanding, The Holy Spirit of Instruction and Truth. If you wonder where this incredible title comes from, unfortunately this massive compilation doesn't include every single missing book. It's a great collection, but the search isn't over - far from it. If you can, get a hold of a copy of The Apocryphal New Testament (sacred-texts.com) and read the Mary Hath Chapters and Protevangelion to find where the title

comes from. I also suggest getting a copy of the Dead Sea Scrolls, you'll find the War Scroll is found both at Qumran and in the Coptic Ethiopian Bible. The Dead Sea Scrolls back up a lot in the book and vice-versa. If you consider yourself Christian, please find a copy of the Jewish New Testament or the Complete Jewish Bible to expand your understanding of Israelite culture and understanding Torah. You cannot understand Yeshua without knowing Torah. Just a warning: If you read Enoch 3, you might be taken off guard. It is a very strange book and should be taken with a grain of salt. If you know anything about Talmud, Kabbalistic and Mystic Gnosticism, that is the realm of this particular text. Personally, I don't take any of those seriously. Talmud is rabbinical commentary and should not be taken 100% serious. Another secret book is the Testament of Solomon which echoes the Talmud's claim of how King Solomon was able to control evil spirits with a magic ring to help build the Temple. The Hebrew Bible tells a different story of how the Temple came to be, but believers in Jewish Mysticism consider this fact. I personally don't buy it for a minute, how could a Holy Temple be built by Holy Angels and evil spirits? A house divided against itself cannot stand, right? However, a counter point would be this - the Temple was built by both good and evil, which is why G-D allowed it to be destroyed as Yeshua predicted it would. Bear in mind that if you choose to get a copy of the Dead Sea Scrolls there are two things to look out for: The Watchers and the Shoddy Wall Builders. The Watchers are the fallen angels who laid with daughters of man and had offspring, the Nephilim. Note: The fallen angels and demons are not the same, demons are the souls of the Nephilim who passed away in Noah's flood. In my mind the phrase "Shoddy Wall Builders" brings Freemasonry to mind. They do in fact claim to be the builders of Solomon's Temple, but "Shoddy" implies bad or fake. I'll stop there and let you think on your own about all of that. It's a lot to take in, go slow. This turned out longer than expected, but before I post there's one final thing: I mentioned there were other books to be found, if you would like to preview some of them before buying a hard copy there is a website called sacred-texts.com this is a free source to everything you could possibly imagine. Here's a quick review of books you might think about purchasing: The Encyclopedia of Lost and Rejected Scriptures: The Pseudepigrapha and Apocrypha, The Septuagint, The Apocryphal New Testament, The Dead Sea Scrolls, The Dead Sea Scrolls Bible, The Coptic Ethiopian Bible (if you can find it), The Greek Orthodox and Catholic Bibles (for cross referencing), The Jewish New Testament, The Complete Jewish Bible. Hopefully this review proves helpful to someone, happy hunting - always search for truth. Shalom

I am really in to finding the truth to God's word and was a bit concerned about reading this, well the holy spirit which guides me to all truth. has revealed this book has many truths that make the bible

make so much more since. i would also think God would not like all this is left out of the bible, but God says seek the truth and you will find it.....right in this book!!!! excellent

This book kept coming up in other readings, videos, and discussions. Beautiful and informative book.

Many Ancient writings in one book. I especially loved the writings of Enoch. Print is quite small.

Simply moving. A great tool for those searching of a deeper and more complete understanding of the Holy Book.

Great addition to the bible. Fills in what's missing from the bible.

Awesome books which further expound the Bible.

Not as advertised
