The Writer's Digest Guide To Science Fiction & Fantasy

Synopsis

Craft an otherworldly experience for your readers! Do you dream of writing tales that pull readers into extraordinary realms? The Writer's Digest Guide to Science Fiction & Fantasy gives you everything you need to build a fantastic world, inhabit it with original and believable characters, and create an authentic and enthralling story. Two complete books in one, this comprehensive guide includes invaluable and timeless advice for writing and selling speculative fiction from best-selling author Orson Scott Card's *How to Write Science Fiction & Fantasy*, as well as world-building information and instruction from the indispensable classic *The Writer's Complete Fantasy Reference*. You'll discover: how to wield story elements that "define" the science fiction and fantasy genres ways to build, populate and dramatize fantastic new worlds how to construct compelling stories by developing ideas, characters, and events that keep readers turning pages historically accurate information about world cultures, legends, folklore and mysticism how to authentically portray the rituals of magic and witchcraft in-depth descriptions of mythological creatures, fantasy races, clothing, weapons, armor, and more The boundaries of your imagination are infinite, but to truly hook your reader you must ground your fiction with credible details. Let this book be your guide as you venture into the fantastic and you'll create vibrant, captivating new worlds that spring off the page.

Customer Reviews

Orson Scott Card is the author of the renowned Ender series and a winner of both the Hugo and Nebula awards.

A uniquely organized book chock full of interesting information about world building and historical peoples. The fantasy section is very interesting just for the information about ancient peoples, their lives and even the diagram of a castle. All in all a pleasure to read for both the science fiction writer and fantasy writer. The books cover nearly everything from the ground up and will be on my shelf for years as a valuable resource and interesting read for ideas.

Gave as a gift to a friend, they enjoyed it!

Bought it as a resource for a on line writing class I was takeing. Spent more time studying the book then the class!Excellent lay out reference on writing Science Fiction & Fantasy.

Nice

I purchased this book for my husband for his birthday. He is interested in writing a book and has really enjoyed reading this one. There is very helpful information for a beginning writer.

It definitely looks good. I can get a lot out of this thing. I am trying to get a book published.

If you are looking for a book that will help get you started down a Science Fiction writing career then this book is it. The book covers everything from world building to genre identification (what type of sci-fi you want to write). I highly recommend that you purchase a copy and keep it close to wherever you like to write.

I was seduced into buying this book. With Terry Brooks on the cover to promote the book. It turned out to be simply new packaging, hard vvv expensive edition of vv old stuff that was written years and years ago! I did have the original Books by the contributing authors. Therefore was greatly disappointed. Didn't the authors have anything NEW to say after twenty years since the publication of their original books? ...shame shame shame on the publishers and authors. The only new material was a 2 page introduction by Brooks and few websites added here and there.. A money making device ...
