The LawDog Files: African Adventures

Synopsis

LawDog had the honor of representing law and order in the Texas town of Bugscuffle as a Sheriff's Deputy, where he became notorious for, among other things, the famous Case of the Pink Gorilla Suit. But long before he put on the deputy's star, he grew up in Nigeria, where his experiences were equally unforgettable. In THE LAWDOG FILES: AFRICAN ADVENTURES, LawDog chronicles his encounters with everything from bush pilots, 15-foot pythons, pygmy mongooses, brigadier-captains, and Peace Corp hippies to the Nigerian space program. THE LAWDOG FILES: AFRICAN ADVENTURES are every bit as hilarious as the previous volume, as LawDog relates his unforgettable experiences in a laconic, self-deprecating manner that is funny in its own right. Africa wins again, and again, and again, but, so too does the reader in this sobering, but hilarious collection of true tales from the Dark Continent.

Customer Reviews

No really don't do it. Unless that is you like giving yourself a nasal flush with whatever beverage you happen to be consuming. Also do not read in bed when your dear spouse is trying to go to sleep

because said spouse will find your cackles, guffaws and manic laughter make sleep impossible. Also do not start reading just before you go to bed because before you know, it's o'dark thirty and you've finished the book and now only have a couple of hours before the alarm goes off. If you can avoid those pitfalls read this book. It will bring joy to your life, no matter how miserable it currently is.

Yes, I had read some of the stories before, but Lawdog is a great teller of tales. Having them all in one (or two, since there is a companion book) is wonderful. Herein lies the tales of a young expat growing up in Africa. The rambunctiousness of two brothers, terror visited on local wildlife, fun with chemistry, and the inevitable clash of cultures, all told in a humorous and loving manner. Sometimes you read things and you are just forced to think, "I would love to sit around a fire with this guy, and listen to him spin his stories deep into the night." A good, fun read.

My son recommends this book after he and a group of friends read it aloud around a campfire during a hiking trip. I ordered it last night. My son tried to warn me I would probably awaken other family members with my inevitable laughter. He was right. I NEED this book in print for several people that do not have electronic devices... It is definitely one that would make a great gift for those people one doesn't know what to give.

More genuine hilarity from the life and times of Lawdog, when he was but a wee pup growing up on the African continent. Silly laugh-till-your-belly-hurts stories involving free range children, anachronistic medieval weaponry, fun with chemistry, drunken oil engineers and way too many explosions. (Who am I kidding, you can't have too many explosions!) Enjoy!

A follow on to the original LawDog Files . . . and it's a worthy sequel. LawDog's writing style never ceases to entertain. His compilation of stories from growing up in Africa are a glimpse into a childhood most would never experience. Just like the original book, I finished this in one sitting and the wife wondered what was so damned funny. TL;DR - If you liked the original, you'll love the sequel!

Another great read from the Lawdog. If you haven't read his other book, buy it now. Fascinating insight into the childhood of the Lawdog and what life in that part of Africa was like during the early 70's.

I had read these stories years ago when they first appeared on Lawdog's blog. It was a pleasure to re-read them. Note: You get strange looks when you read while having lunch at your local greasy spoon. The giggling and snorting draws curious looks from the other patrons. The waitresses ignore me. I'm a regular. This, like Lawdog's previous book is a must-buy!

The man has led a very interesting life, and his storytelling skills are superb! His ability to look back, see the humor in his adventures, and to share that humor with us is extraordinary! Highly recommended!
