## **Customer Reviews**

Easy reading and easy tips to remember when you are applying to jobs. Specially helps to figure out how the interviewer may react upon your develop during the face-2-face process.

I wish I would have read this book before going on my past job interviews! I just laughed when I recognized the many mistakes that I made in answering difficult questions. This book gave so much knowledge and insight into appropriate answers that interviewers look for from potential job candidates. I would recommend this book to all job seekers!

Great book!!

This book helped prepare me for my first interview in 12 years, plus it gave me a bit of confidence. Just read the answers to the types of questions you anticipate getting. I got the second job I interviewed for, which was the one I wanted, and I'm so glad I used this book to help me prepare.

Great answers to some tough questions. The only downside is that I feel like too much emphasis is placed on the suggestion of the 30-60-90 plan. Sometimes that doesn't work for all interviews or different style Powerpoint presentations may be more beneficial, but for the price, the read was totally worth it!

I appreciate the "behind the question" insight this book provides and the practical suggestions for crafting my response. This is already giving me greater confidence in my job search.

This book was very helpful in preparing me for my upcoming interview. It went in with great confidence and what do you know, I got the job.

Great book with practical answers. A very easy read and I feel ready for most questions that would/could be asked on an interview. I highly recommend this book.
