## Customer Reviews

As with Adler's previous books in this series, the picture-book format serves as a highly effective, empathetic way to introduce the life and legacy of important Americans to young children. Here the highlights of King's life are presented with an emphasis on his childhood and family. Children will immediately relate to his painful early experiences of racism and understand the genesis of his lifelong struggle for racial equality. The book portrays the hatred King endured, the horror of his assassination and the intense power of his message. A single-page list of important dates closes the book. Its most striking aspect is Casilla's evocative watercolor paintings, which expand the text while celebrating the man. Ages 4-9. Nicely done book. My kindergartner is very interested in history and so when he wanted to know what MLK day was about, I went searching for a book that could tell him. We had gotten a different one last year that was just excerpts of his speeches. This one is much better at giving overview of Dr. King's life and work.

Good Book, Easy for kids to read and learn.

Awesome book for kids. My 7 year old loves it! Reads it by himself and learned a lot

Great for youth!

It's a good addition to the selection for PK/K. It has his childhood in it, which they can relate to. It's a small book so it's not as ideal for large group readings unless your class is really used to being read to.

This was a great book for my kindergarteners!! They were engaged and enjoyed asking questions about MLK.

We enjoyed this book.

The kids enjoying reading this book
